

3-17 aged kids who have witnessed or been exposed to intimate partner violence

SPeaR- Child and Youth Educational Programmes

Vision

Kids who are witnessing or being exposed to family conflict or intimate partner violence will lead to their emotional instability and hurts. This Project aims to enhance the life skills of the kids in addressing the unfavourable circumstances. Also, the child-centred approach is used to enhance the knowledge of parents in understanding the needs of their kids.

Objectives

- 1 Use of Child-centred approach to facilitate the kids expressing their emotional distress caused by the conflict of parents.
- 2 Educate the kids using non-violence communication method
- 3 Enhance the resiliency of kids when facing crisis
- 4 Enhance the supportive network of the kids
